

PREMISOL

Self Accelerating

Flux Can Triple Salt

3 in 1 phosphating, Alkali Cleaner, Alkali Cleaner Silicate, Beneficiation Polymer, Chrome Free Passivation For Mild Steel, Chrome Free Passivation For Stainless Steel, Coal Beneficiation, Coal Beneficiation Polymer, Flocculants Polyelectrolyte, Flux Can Triple Salt, HCL Inhibitor, Hot And Cold Phosphating Chemical, Hot Zinc Phosphating Chemical, Industrial Chemical, Inhibitor For Phosphoric, etc.

3 IN 1 PHOSPHATING

IRON PHOSPHATING CHEMICALS

HOT ZINC PHOSPHATING CHEMICAL

About Us

Flowchar India Pvt. Ltd. was founded by individuals with extensive business experience spanning three decades who also had expertise in a wide range of industrial process chemicals and technologies. They have been linked to many industrial segments such as steel, sugar and distilleries, textiles and garment processing, petrochemicals and fertilizer, paper, food, pharmaceuticals. With their support, today, we have established a full fledged system in the company, which is aimed at the development of chemicals like Hot And Cold Phosphating Chemical, Silicon Based Sticker Cum Spreader, Sulphuric Acid Inhibitor, etc., in accordance with various internationally recognized standards.

We initiated commercial operations in 2018 after witnessing that the Indian market promoted many Hexavalent Chrome based products for applications in metal processing, through various developed countries have already started using other safer alternatives that had the excellence of Hexavalent Chrome but were kind to the environment. Partnering with a Netherlands based company, ADI, having 40+ years of experience in metal surface treatment, we then began serving as an importer, and promoting their innovative formulations in the Indian market. This technical collaboration also helped us gain an edge as a manufacturer and exporter, and offer many innovative products under our own brand name of Premisol to our Indian and global clients.

Key Facts

Nature of Business	Manufacturer
Primary Competitive Advantages	acid inhibitors,phosphating chemicals,cationic polymer,
No of Staff	50
Year of Establishment	2018
OEM Service Provided	No
Monthly Production Capacity	100 ton
ProductRange	acid inhibitors,phosphating chemicals,cationic polymer,

Our Products

HCL Inhibitor

Self Accelerating

Coal Benification Polymer

Premisol M 301 WR Superplasticizer

Flocculants Polyelectrolyte

Industrial Chemical

Water Reducing Admixture

Phosphating Spray

Phosphating Chemical

Hot And Cold Phosphating Chemical

Primecoat Passivation Chemicals

Chrome Free Passivation For

Chrome Free Passivation For Mild

Mineral Benification Chemicals

Premisol Polyelectrolyte

Sulphuric Acid Inhibitor

ADDRESS

C-202, 2nd Floor, Velpula Iris,
Kannur Post, Bengaluru,
Karnataka, India (562149).
